

Art.no. **3521**

Portable, pneumatic tyre inflator with container of 16 l capacity, charging of compressed air manually, consisting of tyre inflating gun with pressure gauge (art. no. 7301) and 5 m – spiral hose.

The unit works autonomously once it has been pressurized with compressed air at max 7 bar pressure.

Art. no.	Weight	Dimensions (LxWxH) (mm)
3521	10 Kg	300x400x810

Art.no. **3524**

Mobile, pneumatic tyre inflator with container of 24 l capacity, charging of compressed air manually, consisting of tyre inflating gun with pressure gauge (art. no. 7301) and 5 m – spiral hose.

The unit works autonomously once it has been pressurized with compressed air at max 7 bar pressure.

Art. no.	Weight	Dimensions (LxWxH) (mm)
3524	12.5 Kg	380x330x780

Art.no. **3526**

Portable, pneumatic tyre inflator with container of 16 l capacity, charging of compressed air manually or automatically by the use of a MF valve installed on the handle, consisting of tyre inflating gun with pressure gauge (art. no. 7301) and 5 m – spiral hose.

The unit works autonomously once it has been pressurized with compressed air at max 7 bar pressure.

Art. no.	Weight	Dimensions (LxWxH) (mm)
3526	10 Kg	300x400x810
